Meeting Date: [Click or tap to enter a date.](#)

Council Inquiry:	<p>Further to the discussion regarding Asset Management Plans at the Feb. 10 meeting of Council, which asset plans does administration expect to have completed in time to inform deliberations for the 2027-2036 Capital Improvement Program, scheduled for Nov. 16-20, 2026, and which asset plans will not be completed in time to inform those deliberations?</p> <p>To the extent possible, can administration gauge how critical the resulting gaps in data will be for those plans not completed in time for CIP deliberations? (i.e. What level of the risk is there to the organization and how might the plans not completed impact critical infrastructure should something fail?)</p>
